

Asahi India Glass Ltd.

India's Leading Integrated Glass Enterprise

Engineering advanced architectural
and automotive solutions that define
the modern landscape.

About AIS

For four decades, AIS has been the quiet architecture behind India's most visible landmarks, the windshield that protects, the façade that defines a skyline, the window that lets a home breathe.

Born in **1984** as a joint venture with Asahi Glass Co., Japan, and Maruti Suzuki, AIS grew from a single product for a single customer into the country's leading integrated glass and window solutions company. Today, it is the dominant force across two demanding industries at once, automotive and building & construction, a position few global glass companies have earned in one market, let alone both.

Why AIS Leads

The true strength of AIS lies in complete vertical integration. From float glass manufacturing to processing, fabrication, and installation, AIS controls the full value chain, a sand-to-solutions capability that few competitors can replicate.

**15 Manufacturing Plants
& Sub-Assembly Units.**

**A National
footprint.**

**A partnership with
Asahi Glass Co. (Japan)**

that brings global technology
to Indian ground.

Portfolio Architecture: Sectors & Solutions

Automotive	Architectural	Consumer Ecosystem	Industrial Components
Engineering mobility and safety standards across transit segments.	Shaping high-performance structural and design landscapes.	Direct-to-consumer specialized integration and fenestration.	Material science application for high-demand equipment and durables.
Passenger & Commercial	Commercial Exteriors	Advanced Window & Door Systems	Consumer Durables (White Goods)
Mass Transit Infrastructure	Commercial Interiors	Integrated Glass Solutions	Construction & Farm Equipment
Defense & Specialized Mobility	Residential Exteriors	Car Glass Repair & Replacement	
Next-Gen Micro-Mobility	Residential Interiors	Advanced Vehicle Detailing	

Our Consumer Brands

Engineering the Individual Experience

AIS Windows

A strategic business unit delivering high-performance, custom-made window and door solutions. We combine advanced glass technology with durable uPVC and aluminium frames to enhance aesthetic appeal, security, and energy efficiency.

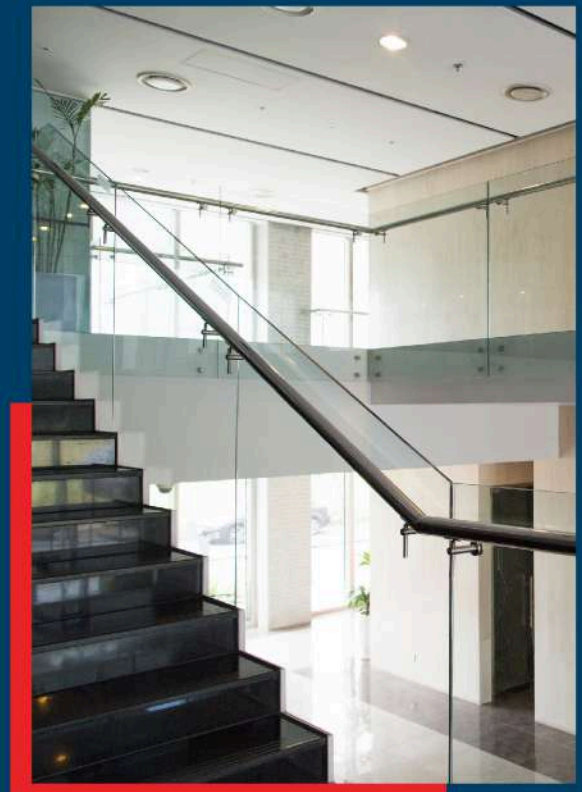

- Arched Windows
- Sliding Doors And Windows
- Fixed Windows
- Casement Windows
- Specialised Windows
- Bay Windows
- Tilt & Turn Windows

AIS Glasxperts

As India's only integrated glass lifestyle provider, we transform interior and commercial spaces. Our team offers end-to-end consultancy, ensuring that every project meets modern requirements for safety, privacy, and acoustic insulation.

- Weather-proof
- Safety And Security
- Soundproof

AIS Windshield Experts

Providing unparalleled safety and convenience for automotive owners. With a nationwide network, we leverage OE-spec products and international installation standards to ensure your vehicle's glass is restored with precision.

- Sunroof Glass Replacement
- Car Glass Repair
- Car Glass Replacement
- Value Added Products & Services

Car Fit Experts

Our dedicated car-care arm focuses on quick-turnaround professional maintenance. From battery health and headlight restoration to specialized detailing, we use world-class products to extend the longevity of your vehicle.

- Car Care Products
- Headlight Restoration
- Battery Check And Replacement
- Car Glass Repair And Replacement
- Car Detailing Services
- Wiper Blade Check And Replacement

Landmark Projects

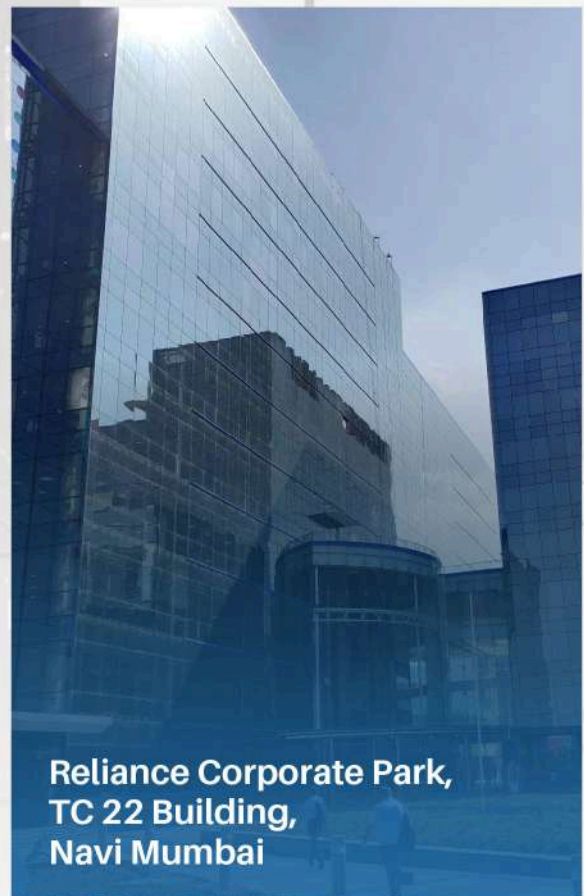

AIS Ecosense

Antraya, Pune

The Antraya project in Pune uses AIS Ecosense's Dark Grey Essence variant, designed by architect Prajwal Karenjekar and executed by Hatchway with RSM as façade consultant. The energy-efficient, solar-control glass gives the building a sleek, contemporary look while keeping interiors bright. Being Green Pro and GRIHA certified, it reflects Ecosense's strength in sustainable, modern architecture.

[Know More](#)

**Reliance Corporate Park,
TC 22 Building,
Navi Mumbai**

This large-scale commercial development in Navi Mumbai features Clear Essence, Enhance Snow, and Enhance Nectar from the AIS Ecosense range. Designed by Team One Architect and executed by Innovators Facade, SP Fab, and Hatim Glazing, with Shapoorji Pallonji as PMC, the project reflects strong collaborative execution. The glazing enhances energy efficiency while maintaining a crisp, transparent façade across the building.

[Know More](#)

AIS Opal

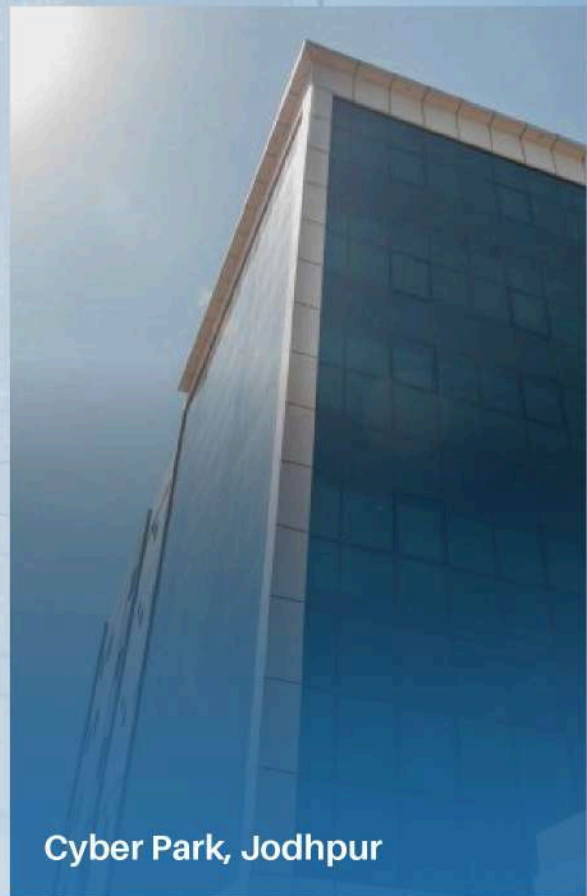

GLASS THAT DEFINES SKYLINES

**Digha Sankarpur
Development Authority,
Digha, West Bengal**

Situated along the coastal belt of Digha, this project uses AIS Opal, a heat-reflective glass with strong solar control performance suited to the region's intense heat and moisture. The glass allows ample natural daylight while resisting fading over time. Backed by a 10-year warranty, it highlights Opal's reliability in high-exposure coastal environments.

[Know More](#)

Cyber Park, Jodhpur

Located in Jodhpur's hot, arid climate, Cyber Park relies on AIS Opal to manage intense solar heat load while letting in sufficient natural light. Its durable, anti-fade coating with UV protection suits the region's harsh year-round sun exposure. Backed by a 10-year warranty, the project reflects Opal's fit for energy-conscious buildings in extreme climates.
